Dear Mr Westerberg,

With reference to your e-mail dated December 8, 2003 to Mr Grundén, I would like to provide the following information.

Saab TransponderTech AB confirms that GP&C has the right to grant licenses, which include the right of import into Sweden of transponders for Civil Aviation and Civil Maritime.

CIRM is informed that Saab TransponderTech AB has acquired the patent for Sweden, and as a consequence is in a special position in Sweden, but that this does not prevent any of the companies that will sign a license agreement with GP&C to export their products to the Swedish market.

I send a copy of this message to the Secretary General for his information.

Best Regards

Bengt Hagersten
